The INCE/USA Liaison Program and Sustaining Members

The INCE/USA Liaison Program has two major goals:

1. To provide all Sustaining Member organizations concerned with environmental noise control with up-to-date technical information on the latest research and development in the field. This information assists Sustaining Members of the program to better meet their responsibilities to their customers, to their employees, and to society at large.
2. To enable the Institute of Noise Control Engineering to expand its technical programs and services in order to fulfill its obligations to the Institute membership and to society at large.

Sustaining Membership in the INCE/USA Liaison Program is available only to commercial and industrial organizations, consulting firms, and academic institutions. Sustaining member contributions are used to increase the base of financial support for the activities of INCE.

The tangible benefits of participation in the program are described in this brochure. The annual contribution should be tax deductible as a normal business expense by organizations concerned with noise control. Sustaining Membership indicates a concern for INCE—a professional organization working toward the laudable goal of reduction of environmental noise and the promotion of engineering solutions to environmental noise problems. We believe that all organizations in this field will benefit greatly by participation in the program.

What is INCE/USA and what does it do?

- The Institute of Noise Control Engineering of the USA, through its demanding membership requirements and board certification program, promotes and ensures professionalism in the field of noise control engineering. More than 1000 individuals participate in INCE activities as Members or Associates of the Institute.
- INCE/USA sponsors the NOISE-CON series of national conferences on noise control engineering held in the United States and organizes the INTER-NOISE series of international congresses on noise control engineering when held in North America.
- INCE/USA publishes the bimonthly international technical journal, *Noise Control Engineering Journal*, <http://www.inceusa.org/publications/ncej>, and the internationally-distributed quarterly news magazine, *Noise/News International*, <http://noiseneewsinternational.net/>.
- INCE/USA is deeply involved in coordinating technical activities in noise control engineering in a wide diversity of research activity, technology development, and practical application areas.
- INCE/USA publishes a Membership Directory which includes listings of Members, Distinguished Corresponding Members, Associates, and Sustaining Members of the Liaison Program.
- INCE/USA is a Member Society of the International Institute of Noise Control Engineering (I-INCE), and participates in its activities and programs.
- INCE/USA is deeply committed to electronic communications. Many of the NoiseCon and InterNoise Proceedings are in the searchable INCE Digital Library and are available to sustaining members: <http://www.inceusa.org/publications/confpapers>.
- Sustaining Members are encouraged to visit the INCE web site at <http://www.inceusa.org>.

Sustaining Membership in the INCE/USA Liaison Program

Sustaining memberships in the INCE/USA Liaison Program help support INCE/USA operations enabling the Institute to provide better services to their membership, to the community of noise control specialists, and to the general public seeking information and help on noise problems.

Some of the benefits of Sustaining Membership in the INCE/USA Liaison Program are listed below. A form is included as the last page of this brochure. It can be used to update information for present members of the program or as an application form for new members.

Benefits of Sustaining Membership

INCE Home Page <http://www.inceusa.org/>

Sustaining Members of the program are listed under the membership section of the INCE/USA Home Page <http://www.inceusa.org/about/members/sustaining> together with links to the homepage of their own websites.

NCEJ and Conference Proceedings CDROMs and Directory Listing

Sustaining members will receive a copy of the CDROM that contains all the NCEJ papers published for the year that they participate in the program. The CDROM also contains a copy of the membership directory. Additionally, a copy of the CDROM of the NoiseCon or InterNoise proceedings for the year of participation in the liaison program is provided

Sustaining Member Certificate

Sustaining Members will receive a distinctive certificate of participation in the Liaison Program.

Job and Event Listing

Normally we ask people to give a donation to the INCE/USA Foundation when they post a job advertisement on our pages. As a sustaining member, this opportunity is available free of that expectation, <http://www.inceusa.org/jobs>.

INCE/USA
New and Renewal Application for Sustaining Membership

My organization would like to be a Sustaining Member of the INCE Liaison Program. Enclosed is a check for \$500 payable to the Institute of Noise Control Engineering for the 20__ year's membership.

Company name (exactly as it should be listed): _____

Address: _____

City _____ State/Province _____

Postal Code (zip code) _____ Country _____

Name and Position of Contact Person _____

Telephone: _____ FAX: _____ E-mail _____

Mailing address (if different from above) _____

City _____ State/Province _____

Postal Code (zip code) _____ Country _____

Briefly describe the nature of your business (Attach additional information as appropriate)

Company Internet address (URL): _____

Please return this form and your check for \$500 to:
