

# GEORGE C. MALING AWARD

## for Excellence in Noise Control Engineering

### APPLICATION FORM

*The Institute of Noise Control Engineering George C. Maling Award for Excellence in Noise Control Engineering is intended to provide, and disseminate widely, recognition for an outstanding project, product, or processes in the applied practice of noise control engineering. The project, product or process should demonstrate a significant contribution toward a quieter environment and/or be consistent with the recommendations of the National Academy of Engineering Technology for a Quieter America report. The precise nature of the project, process, or product is not rigorously defined by this policy, but is left to the nominator to establish and the judges to evaluate.*

This form is for the nomination of a project, product, or process for consideration by the Board of Directors of the Institute of Noise Control Engineering for the George C. Maling Award. The Nominee(s) need not be a Member of INCE and may self-nominate. Nominee(s) may be an individual, multiple individuals, or an organization. The completed submission form shall be submitted with not more than eight additional pages using 10-point or larger type. The submission shall include at least three reference letters. Letters should be prepared by individuals familiar with the accomplishment for which the award is sought; at least one reference letter should come from a person or persons, who do not work for, have not recently worked for, and who do not have strong financial or personal relationship with the business, company, or organization of the potential recipient(s).

**Applications will be received on a rolling basis, to be judged on individual merit.** The number of awards given during an annual period will be capped based on funding available.

The Award consists of an engraved plaque and an honorarium of \$3,000.
