

Outstanding Educator Award

NOMINEE SUBMISSION FORM

The Institute of Noise Control Engineering Outstanding Educator Award for Excellence in the Teaching of Noise Control Engineering is intended to honor a person who has significantly advanced the technology and practice of noise control engineering through unique contributions to the education of future noise control engineers, as demonstrated by one or more qualifying accomplishments. The precise nature of the project, process, or product is not rigorously defined by this policy but is left to the nominator to establish and the judges to evaluate.

The Award will be offered every four years and is not mandatory that an award be made at every 4-year interval. The Award consists of a certificate plaque and a cash grant of \$2,000.

This form is for the nomination of a candidate for consideration by the Board of Directors of Institute of Noise Control Engineering for the Outstanding Educator Award. Any person whose accomplishments were made while residing in the Americas is eligible to receive the INCE Outstanding Educator Award. Any person is eligible to submit a nomination for this award. Membership in INCE is not required. The submission shall include at least two seconding letters prepared by individuals familiar with the candidate's accomplishments. Qualifying accomplishments may include:

1. Excellence in teaching, whether through the inspired dissemination of the principles of noise control engineering, or by inspiring students to attain high achievement in the field of noise control engineering;
2. The notable improvement of tools, such as textbooks, laboratory experiments, courses, and student projects, for the teaching of noise control engineering in a university.

3. Excellence in disseminating the principles of noise control engineering outside of a university setting through the teaching of short courses and seminars; by promoting cooperation among academic, industrial, or government sectors or with other disciplines; or by advancing the public's understanding of the benefits of noise control engineering;

4. Enhancing and diffusing the knowledge of noise control engineering through seminal research, scholarly publications, or patents; or the development of noise control materials, products, techniques, or programs;

5. Providing sustained and effective leadership for the educational programs and activities of the Institute of Noise Control Engineering.

The entire package of nominating information (the nominator's letter, the completed submission form and the seconding letters from references) must be received by the Vice President of Honors and Awards by the submission deadline to allow sufficient time for judging and voting by the Board of Directors.
